

A united effort is requested to enable this unique and needed Christian voice to exist

# HopeProject nz

## Would you like the name of Jesus to be known at Easter and Christmas?

Our nation continues to be rebranded as 'secular,' while a quick look at our history reveals that we are distinctly 'Christian' — if that definition is measured by our heritage and values.

A public conversation about our identity as a nation continues, and this is why the Hope Project is proposing to return Christ to both Easter and Christmas in 2019.

At a national scale, the Hope Project is raising awareness of some key stories from our nation's history that are not being heard otherwise. It is maintaining an important Christian presence at some key times in the calendar, and is enabling the Christian message of hope through Christ to be heard!

**This effort is needed.**
