

Hope Project Delivery

Policy Regarding other materials

Hope Project asks that other material not be delivered concurrent with *Hope For All* booklets please.

This most certainly includes in relation to political parties, opinions on political issues, opinions on Covid, opinions on end times, Etc., as the potential divisiveness of these topics *detracts from the simplicity and intentionally very wide appeal our Hope Project material has been created to have, while carrying a clear message.*

An exception: As these booklets are delivered on behalf of the churches of New Zealand, if churches would like to collaborate to deliver a flyer with all local church details concurrently, this is suitable. (The contrast here is to the promotion of just one local church). This way the integrity of this being a united effort and conveying a message we all share together, remains clear.

- We have suggested an occasional exception where an individual church includes a flyer / invitation to an Easter service or special event - but within the immediate geography of their own church building only... while taking care not to use that flyer more widely so as to not create any perception of self-interest, promoting one congregation over and above another.

We believe that an open-handed generous approach (promoting all local churches) represents the message we carry together as Christians to our communities the best.
